

“All we are saying is .....GIVE PEACE A CHANCE”

John Lennon

\*My generation, the post war baby boomers, started a revolution in the 60's but with the untimely death of John Lennon, many of us fell asleep into materiality and greed. Well, *this* baby boomer is now wide **awake** and again on the march.

First, in 2002 I wrote and began circulating the **United Peace Pledge** as my *humble* attempt to stop the second Iraq war. Numerous petitions were sent to the United Nations, yet the bloody invasion of that sovereign country occurred! The Iraq civilian death toll to date is over one million men, women and children. Such tragedy is unbearable. How could a Christian country do such a horrible thing!? [www.UnitedNationsPeacePledge.com](http://www.UnitedNationsPeacePledge.com)

So outraged by my government's latest 90 Billion increased spending to remain in Iraq and initiate new imperialism into Afghanistan and Pakistan I felt **I must do something!** That **something** is to become **Liberty** and lead a **GREAT AMERICAN PEACE MARCH - 40 Days/40 Cities** I will begin in Seattle, WA July 4<sup>th</sup>, wind across the continent to end at the United Nations in NYC August 13th .

The <http://www.GreatAmericanPeaceMarch.com> is to continue the vision started in the 60's by John Lennon and others to *stop the madness* of war unilaterally worldwide. I want a massive nationwide *indignant outcry* - so *visible and powerful* that the United Nations Assembly will be *moved* to adopt *officially* the **United Nations Peace Pledge**. Such an *adoption* would bring the **United Nations Peace Pledge** down, through their member states, to each and every adult citizen in the world for their individual, sovereign contemplation. I believe that the vast majority of the world's citizens do not want any more war! Repeating the **United Nations Peace Pledge** will give them individually the *personal* power to say, “**NO**” to war and their government/military officers.

”

I will be marching into the 40 largest American cities this summer with American Indian Elder, Bill Cote. We will be taking over 200 Indian drums and petitions of the **United Nations Peace Pledge** to the United Nations General Assembly. [One ceremonial Indian drum will be given to each member state as a gift from the American Indian nations.] In each American city these Indian drums will be given out and ‘drummed for peace by the residents’. [It will be particularly symbolic because these specific drums will have ‘drummed for peace’ across the entire American continent and thousands of Americans will have played them!]. After the march of singing and drumming American Indian Elders will speak and chant their great *Words of Peace*. Next other invited Peace Prophets and myself will speak. .

This is the most critical period in human history. I have the resolve to know that the greed, control, rape and violence is the PAST. I am setting free the FUTURE without war. A FUTURE of love, health, happiness and abundance for all the People of the World.

I invite all Americans to bring your petitions, which I will collect, to a march site. I will than pass out the Indian peace drums for you to play. You, of course, will also need to bring your

beautiful singing voice. You can download [the petitions](#), [song lyrics](#) and [posters](#) here on this website. Let's do this. Let us together bring

PEACE ON EARTH and GOODWILL AMONGST ALL TRIBES

Peace and blessings,

**Mary**

Mary Hath Spokane, a Peace Prophet and Author of the United Nations Peace Pledge:

*We are Peace Prophets.  
We will never kill another brother or sister Human Being.  
We believe only the Creator of that Human Life  
has the right to end that Life."*
